Join NIJO Legal Advisor and Instructor Rachel Love for a practical training session focused on the critical skills of report writing and documentation. This 4-hour course is designed especially for line staff and supervisors, highlighting how the work they do—whether during an incident or routine operations—can have lasting impacts on the agency, particularly when scrutinized in litigation.

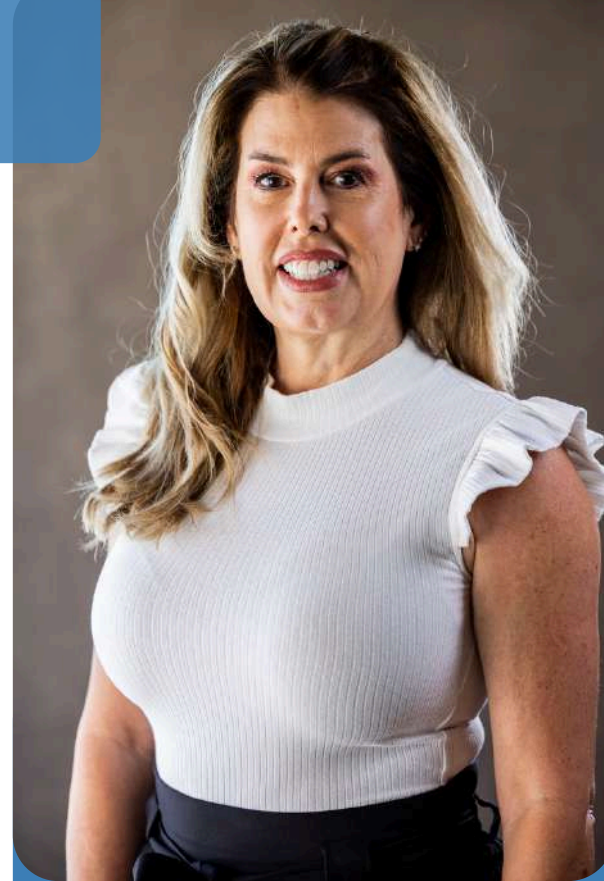

With a style that's lighter on legal jargon and heavy on real-world examples, Rachel will share valuable lessons learned from actual cases—what hurt, what helped, and what made all the difference in court. Participants will review overarching topics including:

- **Use of Force Documentation**
- **In-Custody Suicides Incident Documentation and Investigation**
- **Mental Health Management Documentation**

**This training is pre-approved
for 4 credit hours toward NIJO
Professional Certification**
